## THE BOMBER PRESS

## IN GREAT BRITAIN

By WALTER R. LEGGE

### CONFERENCES WITH CABINET MINISTERS

As mentioned in an earlier article, in addition to the conference which we had with Britain's Prime Minister, we had informal meetings with a number of the Cabinet Ministers.

Naturally as editors we were particularly interested in meeting the Minister of Information, the Hon. Brendan Bracken. Before his appointment to this post in July 1941, Mr. Bracken was Parliamentary Secretary to Prime Minister Churchill. He has had practical publishing experience, having been editor of "The Banker", Chairman of the "Financial News," and managing director of "The Economist."

Mr. Bracken is the fourth man to have held the Ministry of Information post since the beginning of the war.

Our conference with him was an inspiring one. He told us something about what England is doing. "The people of England," he said, "are working harder than any other people have in any war. A series of nothing but misfortunes has not destroyed our senses. The English people are all out in their war effort, but they will still do more. Whatever happens, the English will never surrender. We will see this thing through to the absolute end."

"Some people think that after the war, England will give up her Empire and Imperialism. This is entirely wrong. We will not sell our heritage for a mess of pottage. We have an immense contribution to pay to posterity, and no government will ever agree to the dismemberment of the British Empire."

"The British lion is not a many-dayed animal, nor will he be confined in an iron cage. Only in the years to come will the effort of England be really understood."

Such was part of the message that the Hon. Brendan Bracken had for us. We found the Ministry of Information most co-operative during our stay in England. The passes issued by that department were so effective that the others which had been issued to us were almost superfluous.

We met Hon. Ernest Bevan, Minister of Labour, in his office and had a talk with him. Mr. Bevan was born in 1884 and started his career as truck driver was General Secretary of the Transport Workers' Union, and in 1940, became Minister of Labour and National Service. Some people think that he may some day be Prime Minister.

His is one of the most important tasks today, for Britain is manning the world's greatest navy, maintaining armies in many parts of the world, supplying a steady stream of youths for the R. A. F., keeping up home defenses, fire fighting and A. R. P. services, and steadily increasing production of war supplies. No wonder that he told us there was no such thing as a saturation point in manpower.

He has made a wonderful success of his task, but it must be remembered that this result could not have been attained without the enthusiastic co-operation of the entire population.

In answer to our question he said that there is very little wilful absenteeism. But when we asked him about labour troubles in certain places, he impatiently replied that the newspapers had to make news, and "virtue has no news value."

He thinks that the war is teaching

the United Kingdom a great deal about transportation which will have an effect after the war is over.

We had an interesting conference with the Hon. L. S. Amery, who is Secretary for India and Burma. He told us a great deal about the trouble some elements in India. Most of us went away with a new conception of the India problem. We also began to realize how little most people know about it.

Mr. Amery has travelled in most parts of the world, and as we left, he said, "I wish the war were over so that I could pay another visit to Canada."

The last conference we had with Sir. R. Stafford Cripps, who is probably better known to Canadians than any other minister except the Prime Minister. He has been a very successful legal counsellor, and is now Lord Privy Seal.

He has a very attractive personality, a keen mind, and our whole impression of him was entirely favourable. It was an intensely interesting conference, for he spoke of Russia and his mission to that country, and about India and the future of his mission there.

Sir Stafford Cripps is a deeply religious man. A few days before we met him he had given an address in Bristol which aroused wide discussion. He declared that he felt the Church had failed to give leadership expected of it, and that it must be reawakened to a realization of its responsibilities. He thinks that the disestablishment of the Church of England is not far off.

Next to the conference with Prime Minister Churchill, this was the most interesting meeting we had. I gave us much food for thought.

Our conference with Lord Woolton, Minister of Food, and the Hon. Herbert Morrison, Minister of Home Security, have been described in previous articles. Lord Woolton, whose name before he became a peer was Frederick James Marquis, has brought a fine business experience to his task. He was chairman of Lewis Limited, one of Britain's largest departmental stores, treasurer of Liverpool University, chairman of the Liverpool Medical Research Council, a director of Martin Bank and director of the Royal Insurance Co. and of many other corporations.

The way in which he has handled the food situation in England compels the admiration of all.

The Hon. Herbert Stanley Morrison is another Labour man, having been secretary of the Labour Party and also of the National Labour Party.

He led the group assailing Chamberlain's war policies. He became Minister of Supply, and later Minister of Home Security. His chief task is to look after Civil Defence, which was formerly known as Air Raid Precautions. His talk with us was covered in the tenth article which was about A. R. P. work.

These ministers whom we met are charged with the work of conducting vital parts of the war effort. They gave us a valuable insight into the way they have overcome their problems.

## WEDDING

KERMAK — FOWLER

The wedding took place quietly at Central United Church Friday, June 4, of Vera Fowler, daughter of Mr. and Mrs. Fowler of Michieville, Alberta, to L. A. C. James Kermack, son of Mr. and Mrs. Dave Kermack, Pioneer residents of Strathmore, Rev. L. A. Lawson officiating.

Miss Genevieve Newman was bridesmaid and L. A. C. William Sangster, best man.

L. A. C. and Mrs. Kermack will make their home in Calgary.

## SCOUT NOTES

8 Scouts with S. L. Rev. E. J. Hoad went to Wyndham Park Saturday last for an overnight camp. The boys interspersed fishing with striking camp. The fishes caught were not sufficient to help the meat ration very noticeably.

The boys broke camp Sunday afternoon, all very enthusiastic about their outing.

## THE 'OUT-SIDE'

● Housewives must buy frying pans and tea kettles, but when a Toronto hardware merchant was discovered to be selling them above the maximum price he was fined \$200.

● Bananas hardly found the market, but when a Montreal retailer sold them above the maximum price he was fined \$100.

● Coupons Cover Meat in Locker—Consumers, including farmers, who had meat stored in lockers when meat rationing became effective required to declare their holdings before June 30, officials of the Wartime Prices and Trade Board state. The report should be made to the nearest branch office of the Ration Administration, and include meat coupons from the ration books of members of the household, to cover the meat at the rate of one coupon for each two pounds of meat stored. The number of coupons need not exceed 50% of the total number of coupons attached to the family ration books. Thus, if a family of five have 100 pounds of meat stored in a locker the average is 20 pounds for each person. Each member of the household should turn in 10 coupons, one of each pair up to an including number 10.

This was a very successful and encouraging day for Eric and we extend congratulations. This is an incentive to all other in the class to win next year.

## Calgary Stampede

1943 CALGARY EXHIBITION AND STAMPEDE WILL BE CANADA'S GREATEST SHOW

Plans are rapidly nearing completion for the 58th. celebration of the annual Calgary Exhibition and Stampede, July 5 to 10. All features of this great event will again be presented, along with many added new attractions.

The show this year has been dedicated to "Quality Food Production for Victory and Freedom" and it will mirror the Canadian War Effort, particularly in the field of Livestock and Agricultural products. The Livestock exhibit is expected to be one of the finest in many years with a very large entry anticipated. The Swine Show, in keeping with the times, will probably be the largest ever held in Canada. On display in the spacious Cattle Pavilion will be an outstanding exhibit of "keystones" of breed improvement.

The biggest Stampede in the world, with 500 cowboys competing in the hair-raising events, will again feature the afternoon performances. Horse Races, with seven races daily will intersperse the program on the last four days, Wednesday to Saturday. Monday and Tuesday afternoons will be filled with the most thrilling collection of Western Sports ever presented. Along with the Stampede on those afternoons the track events will consist of Roman Standing Races, Pony Express Races, Stake Turning Races and Cart Races. Calgary has long been famous for its exciting Chuck Wagon Races held each evening in front of the Grandstand. These afternoon attractions are expected to challenge the thrills of the Chuck Wagons.

The glorious week will begin with the Stampede Parade on Monday morning at 10 a.m., for which the Armed Services are again co-operating to display Canada's mighty forces of war. Indians, cowboys and old timers will join the Services to present one of the finest spectacles ever presented. The Indians will again come to the Exhibition for their annual holiday and will camp in their picturesque surroundings at the grounds. On Tuesday, Wednesday and Thursday mornings Street Displays will be presented in downtown Calgary. The Old Timers will again entertain all their friends in the pleasant atmosphere of their old log cabin.

The evening attraction on the grandstand platform is entitled "Allies Victorious," and will combine clever comedy and mirthful music in the most attractive presentation ever staged on the A circuit. Each evening the grandstand performance will be opened with the thrilling Chuck Wagon Races. Already over 20 entries have been received for this event, the greatest entry for many years, and thrills and spills will be the result for at least five heats each night. Saturday evening the Indians will parade on the platform in their colorful costumes and Stampede Championships will be presented to the top cowboys of the week. Fireworks will be presented on Monday and Saturday evenings, and will undoubtedly be the greatest display presented in Canada this year.

Little Lorraine Hoff made the presentation and a dainty lunch was served by the hostesses, Mrs. Fairbourn, Mrs. Haymond and Mrs. Walter James. Eight of Miss Hyde's pupils were present. Cluny seems to have quite a hum of activity these days. Kelly and Held of Gleichen are building an addition to the Duncan Clark bungalow. B. F. Graham has just completed a new foundation under his house. The Reliance Elevator have had a gang of men doing some repainting. The Hotel is having a new floor in the kitchen. Sounds of hammers striking nails can be heard in all directions.

Mr. and Mrs. Forsythe left for Minneapolis and other points in the U. S. Miss Joan Williams, who is working in Edmonton as riveter at an Airplane repair Depot, was home for the weekend.

The Study Group on Post War Rehabilitation met at the Fairbourn home on Friday eve under the able leadership of Mr. F. Hutton. These meetings grow more interesting each time. The High School staged a very successful dance on Friday last. There was a good crowd, good music, and around \$50.00 was netted.

Mrs. Allan Clark and children, Mavis and Stanley journeyed to Calgary on Thursday.

We regret exceedingly to report the serious illness of Luke Simonson Sr. He is in the Holy Cross Hospital at Calgary.

**FAT IS AMMUNITION!**

Fat and bone conservation begins at home and ends  
in the firing line

**- DO YOU KNOW -**

One pound of fat supplies enough glycerine to fire 150 bullets from a Bren gun. Two pounds of fat will fire a burst of 20 cannon shells from a Spitfire or 10 anti-aircraft shells.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

**OUR FIGHTERS DEPEND ON YOU**

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fats."

The above paragraph is a direct quotation from Order A-642 of The Wartime Prices and Trade Board.

"Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered.

"Bones" means raw or cooked bones of cattle, sheep and hogs.

**— EVERY OUNCE COUNTS! —**

**SAVE AND STRAIN EVERY DROP TO SPEED VICTORY. SELL IT TO YOUR BUTCHER OR GIVE IT TO YOUR SALVAGE COMMITTEE.**

**NOTICE TO BUTCHERS, HOTELS, ETC.**

You have been mailed a copy of Order A-642. This Order affects operators of hotels, restaurants and other establishments where meals are served. It is of immediate importance to butchers and slaughterers. If your copy has been lost, you can obtain another from the nearest office of The Wartime Prices and Trade Board.

**THE WARTIME PRICES AND TRADE BOARD**

was in the chair and extended a welcome to our visitors and members.

The roll call, "How I economized this year," brought out some very good ideas.

There were the usual two minute talks by Standing Committee Convenors also the Wartime Prices and Trade Board discussion. The sum of \$5.00 was donated to the Red Cross Fund.

Mrs. Graham gave a paper on Canadian Industries stressing more severe rationing for the future, coal shortages etc.

A splendid talk was given by Mrs. George Thurston. She expressed her appreciation at being able to meet with Cluny and Queenstown at the same time.

She commented the members on their good work both W. I. and war work. She gave some very good ideas on the subject of handicrafts and also gave a very interesting short talk on the Derivation of Surnames. She also recommended that we read E. V. Morton's "Books on Travel" and "The Man Nobody Knows".

Birthday raffle given by Mrs. Mustard and Mrs. Reilly was won by Mrs. Edwards. After adjournment a dainty lunch was served by the hostesses.

Mrs. Walter James took her young daughter to Strathmore on Friday last for a music lesson from Miss Hyde.

Mrs. Lee Haymond returned to Nightingale with Mrs. Thurston on Thursday visiting Mrs. Pat Brown, and also Miss Hyde of Strathmore, returning to Cluny on the bus on Friday.

work exhibited. This special award is a silver cup donated by the Hudson's Bay Company of Calgary and will be for Annual competition.

## PAGING HON. W. A. FALLOW

WE would like to ask the Hon. W. A. Fallow, the Minister of Public Works to speed up the repair work that is being carried on on the Highway west to Calgary. The road from Cheshmerville Lake to the Langdon Corner is in such a condition of disrepair that in this time of tire shortage motorists hesitate to drive over this road, as it is at present. If the Hon. Mr. Fallow would drive over this road just twice at a speed of only 35 miles per hour, he would be thoroughly convinced of the justice for the numerous complaints that are being made. We have heard several suggestions, we leave it to the Minister to work out the best solution.

## EDEL FORD AIDS EDUCATION

IT was a commendable act on the part of the late Edsel Ford, to leave the greater part of his large fortune to be used for educational purposes.

## THE NEW SCHOOL ACT

Few laws have caused so much discussion, favorable and unfavorable among so many various groups and individuals, as has this Act, passed in the recent session of the Alberta Legislature.

It is the opinion of many that the members of the Legislature evolved the best possible plan, within their authority, in answer to pressure brought to bear upon them.

The Act was passed in order to release High School Students to give assistance to farmers, for whom the acute shortage of labor is creating a

serious problem, and in some cases real loss, in that work must be left undone, or at best, but very inefficiently performed.

As to the ability of the majority of these students to do the necessary tasks we are very doubtful, in which case the Act will have failed of its purpose. Answering the question that the Public Schools should have continued on their accustomed schedule, and reopened as usual, early in September we are informed by educational authorities that it is quite impossible to operate satisfactorily, two different terms.

The statement that pupils will lose one month of school is in error. Schools do not operate on a Calendar year, but the School Year, which heretofore has been reckoned as from September to June.

With the new law the school year will carry on as from October to July 31, with the holiday week at Easter eliminated, hence a little figuring will make it obvious, there will be the same 200 teaching days in the School Year of 1943-44 as has previously prevailed.

These are the facts.

Having admitted these, we are now free to admit, we are not in agreement with the revised law either from the view point of teacher or pupil or farmer. The term from January to July will be a long one. Having admitted this, we now make the statement that we, the disapproving public, are to blame.

We saw the statement in the Press, that such a change was under consideration, and we sat quietly by.

That was the time to act.

The Act was formed for the Duration. If, following one year's full test the advantages are not apparent, then the Act might be amended.

## WHAT IS GOOD?

I asked in musing mood.  
 Order, said the law court;  
 Knowledge, said the school;  
 Truth, said the wise man;  
 Pleasure, said the fool.  
 Love, said the maiden;  
 Beauty, said the page;  
 Freedom said the dreamer;  
 Home, said the sage.  
 Fame, said the soldier;  
 Equity, said the seer;  
 Spoke my heart sadly

The answer is not here.

Then within my bosom

Softly this I heard;

"Each heart holds the secret!

Kindness is the word."

—John B. O'Reilly

## WE RISE

We rise by things that are under our feet;

By what we have mastered of good and gain;

By the price deposed and the passion slain.

And the vanquished ills that we hourly meet.

—J. G. Holland.

## A CROWD OF 'EM

Do you know how many words in the English language mean "crowds"? Well, here are a few of them—A crowd of ships is called a fleet; a fleet of sheep is called a flock; a flock of girls is called a bevy; a bevy of wolves is called a pack; a pack of thieves is called a gang; a gang of angels is called a host; a host of porpoises is called a shoal; a shoal of buffalo is called a herd; a herd of children is called a troop; a troop of partridges is called a covey; a covey of ruffians is called a horde; a horde of rubbish is called a heap; a heap of oxen is called a drove; a drove of hoodlums is called a mob; a mob of whales is called a school; a school of worshippers is called a congregation; a congregation of engineers is called a corps; a corps of robbers is called a band; a band of bees is called a swarm; a swarm of people is called a crowd.

## LETTERS TO THE EDITOR

## RATEPAYER'S OPINION ON IRRIGATION

I am opposed to any return of irrigation to this District, particularly regarding myself.

For the last thirty years different groups have fought to get rid of it here, and we finally did, and so far as I'm concerned, I want it to stay that way.

And I further want to make a challenge to the Council of Bow-Valley No. 218.

I claim they were not elected to promote irrigation schemes. And further I understand they are charging all travelling expenses of the Committee to different meetings as far away as Edmonton.

I claim this is not Municipal business. I would like to hear from other Ratepayers.

Walter Backs—"How much?"

Gypsy—"Quarter."

Walter—"That's right."

Miss Smith—Golf is as easy as pie to me.

Miss Horne—So I notice. You just took another slice.

## Machines and men must work harder than ever...

NEVER BEFORE was good farm implement service so important.

Farmers are bending every effort to make good on the delivery of the greatest food production program ever required of them. They and their families will do more than they have ever done and machines too will be called upon to work longer and harder.

This year well-designed and soundly-built machines will prove their worth. The services of an organization ready and equipped to keep these machines on the job will be needed and appreciated, too.

Geared to war-time needs, the Massey-Harris organization through its branches, distributing centres, and hundreds of local dealers is prepared to support the farmers of Canada in their efforts to grow more vitally needed foodstuffs with the best service it is possible to give.

### PROVIDE NOW FOR FUTURE BUYING

Some day you will be able to make those improvements you are planning, buy new household appliances, and get the latest and best in equipment. In the meantime build up your capital by buying Victory Bonds and War Savings Certificates—it's the best way to help your country and help yourself.

Ask your local Massey-Harris dealer about repairing and reconditioning your farm equipment.

### TROOPS IN TRAINING CAMPS ENJOY MASSEY-HARRIS SHOW

"Combines of 1943" - Provides Sparkling Entertainment—

Nothing is more appreciated by the men of the forces than lively, fast-moving, interesting entertainment as a break in the routine of training, and that a good variety show ranks high in popularity with them is clearly shown by the spontaneous, enthusiastic applause during the performance of "Combines of 1943" - the Massey-Harris Show that is visiting the training centres of the prairie provinces at the present time.

This show is the result of the efforts of an enthusiastic group of workers in the Massey-Harris Organization who felt that in addition to making arrangements for the fighting forces they would like to do something for the troops in training. Talent for this show was recruited from among the workers of the Massey-Harris plants, and everything including the routines, scripts, arrangements, costumes, scenery and props are products of their development. The show has lots

of variety from start to finish with songs, comedy, acrobatic, tap and novelty dancing, instrumental musical numbers, and a chorus of very attractive young ladies.

Since the first performance, at R. C. A. F. Manning Depot in Toronto, last October the Massey-Harris Show has played over ninety times among the training centres in Ontario. The present itinerary includes training centres in Manitoba, Alberta and Saskatchewan, and deep and sincere appreciation has been expressed by the commanding officers for the enjoyment that the show is providing for the personnel of their units.

## Summer Work for Teachers and Students

Hon. Humphrey Mitchell, Minister of Labour, today appealed to school teachers and to students—university, college, high school and lower school—to engage at farm work or other useful employment during the long summer vacation this year. "Farmers will be in most urgent need of all the help they can get, all through the summer," the Minister said. "Other important war industries are also short of workers. Therefore, to government confidently hopes that teachers and students will not regard the closing down of the schools for the summer as a holiday this year, but rather that they will consider the time as giving them an opportunity to aid directly in solving Canada's wartime labor problems. The nation will need all the help these people can give."

Hon. Mr. Mitchell also pointed out that in view of labour shortages, farmers will have to exercise a good deal of patience when some teachers and students and others first begin to work in agriculture. "With the shortage of fully qualified workers, all industries have had to take inexperienced people. In industrial plants have shown considerable patience and ingenuity in training workers who were new to the job. In order to develop the labor required from the materials available, it will be necessary that farmers do the same. Last year, many farmers showed a good deal of patience in initiating persons not accustomed to farming. It is to be hoped and expected that all farmers will this year give evidence of the same spirit."

At the same time as he made these

statements, Mr. Mitchell pointed out that National Selective Service is giving attention to helping in absorbing into employment all teachers and students. Plans in effect will utilize the service of the Employment and Selective Service Offices and are being carried out in co-operation with the Governments of the Provinces and the Canadian Teachers Federation.

Students in medical and dental courses will continue their studies throughout the summer, while those in pure science courses are permitted to continue at some universities during the holidays, if they wish. This is part of the program to speed up the graduation of students in these courses, as their services after graduation are urgently needed. Undergraduates in pure and applied sciences, other than those continuing their studies, are being directed wherever possible to summer employment of an essential nature which will at the same time be of assistance to the students in the technical training. Employment and Sel-

ective Service Offices have received information from the Wartime Bureau of Technical Personnel at Ottawa, as to suitable types of employment, and each university has appointed a senior staff member as consultant to these offices in doubtful cases.

Other students, whether university or high school or lower school, will be induced to accept employment in agriculture where possible, or work in other industries of high priority where they do not go into agriculture.

Arrangements have been made to locate officials of local Employment and Selective Service Offices at universities and colleges for a limited period before the end of the academic term to advise and direct students to summer employments.

Special arrangements have been made under the Dominion-Provincial Farm Labour Committees established to direct the farm labor program in each Province, to recruit students in farm employment during the summer vacation. For example, it is expected

that the Ontario Farm Service Force, financed under the Dominion-Provincial farm labor agreement, will place thousands of students on farms this summer. Several of the Provinces, through their Departments of Education, have permitted students to leave school before the end of the term if they have secured a certain minimum standing, to work on farms. Some provinces are adjusting the dates of the holiday period so that the holiday will coincide with the time of peak demand for seasonal farm help.

## INTERESTING LETTER FROM PRISONER OF WAR

The following letter was received by Miss C. Tudor from Cpl. Reg. Popham a Prisoner of war in Germany.

Cpl. Reginald Rex Popham is the only son of Mrs. Carrie Popham of Calgary. He is 24 years old and received his education in Calgary. He joined the Signalers Corps in 1939. He went overseas in 1941 and took part in the Dieppe raid in which he was reported missing and presumably dead but was later reported to be a prisoner of war in Germany.

Sunday, March 21, 1943.

Dear Cerydwen:

Your most welcome letter arrived on March 16th. and to say I was surprised would be putting it mildly. From your statement, "there's lots of time," I draw this conclusion. Time somehow passes more slowly outside a Stalag than it does in. Each passing day here is another strike on us, and I am beginning to feel it. I'll tell you a little about our happy home. Starting from the outside it is like a big pasture. You know, barbed wire, but a lot more than is used to keep cows in. The camp is divided into sections, or compounds as we know them, each separated by barbed wire. Each compound contains, besides a walk, too many prisoners, and a few guards. Some life eh? I hope I shall hear from you again soon.

Well having used up my weekly issue of writing material, I shall have to close. My best regards to our mutual friends.

Upon reading this over, I realize it isn't such a good letter, but material here is not the best, or news the latest, but I'll write again very shortly. Hoping for an end, I come to one.

Sincerely yours,  
Reg.

## YOU MUST MAKE A 1942 INCOME TAX RETURN NOT LATER THAN JUNE 30TH

...IF SINGLE and your net income exceeded \$66000  
...IF MARRIED and your net income exceeded \$120000

For incomes not over \$3000 get two (2) copies of simplified Form T. 1 Special.  
For incomes over \$3000 get three (3) copies of Form T. 1 General.

Income Tax dollars are not ordinary dollars . . . they are Victory dollars . . . necessary dollars to help win the war. Income Tax is fair to all. All are taxed in proportion to their ability to pay.

Under the new system introduced this year, Income Tax is now on a pay-as-you-earn basis. The reduction of the 1942 Tax made this possible.

In most cases the larger part of the reduced tax will have been paid by the 1942 tax deductions or instalment payments. One-third of any balance must be paid by 30th June and the remainder on or before 31st December, 1943.

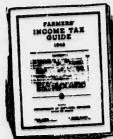

You must file an Income Tax return and pay any balance to establish your right, after the war, to the refund of the Savings Portion of your tax.

If you are a salary or a wage earner, your employer can probably supply you with Income Tax Forms—otherwise, they are available at your local Post Office or the office of your District Inspector of Income Tax.

Over 2,000,000 Canadians will be filing returns and paying taxes . . . avoid the last minute rush. If you wait, illness or other unforeseen circumstances may prevent you from getting your return in on time. Avoid penalties by sending in your return NOW!

## FARMERS

You must attach to your return on Form T. 1 Special or Form T. 1 General either a statement of your gross income and expenses, or completed Farmers T. 1 Supplemental. The T. 1 Supplemental itemizes all forms of farm receipts and expenses, and is a guide for determining your actual net income. Forms may be secured from your local Post Office or District Inspector of Income Tax.

To help you fill out your Income Tax forms a booklet ("Farmers' Income Tax Guide, 1942") has been prepared to cover the special conditions which apply to farm operations. It can be obtained free on request from your District Inspector. If you don't know his address, just mail your letter to "District Inspector of Dominion Income Tax."

Make your returns NOW! - Avoid Penalties!
